

**EXPO BONDS EURO "MAS" (EUR) - UNITS I**

**Main characteristics**

The Fund gives access to the main markets of bonds denominated in EUR. Only bonds issued or guaranteed by first class issuers are considered. The assets are managed with reference to a lower limit of their value (the reference floor) in order to reduce the downside risk. This reference floor can be lowered by a maximum pre-defined annual percentage. The applied strategy of risk limitation enables the Fund to consider investments in longer dated bonds which constitute the risky underlying asset, in which it maintains a minimum 30% exposure. Two classes of units are offered : units "R" open to all investors and units "I" reserved to institutional investors.
